

CareFlow Intake Accessibility Scrap

Flow reviewed: CareFlow Intake

INT-014: Primary continue action fails contrast in current intake frame.

INT-018: Error summary focus order is still wrong in the current design frame.

INT-021: Mobile radio tap targets are below 44px.

INT-024: Insurance select field has an incomplete accessible name.

Referral flow issue REF-021 appears in the same export but is not part of this intake cleanup.
